FOREWORD

Information presented in this volume was taken from the 1983 Annual Report/System Membership Applications submitted by public libraries in Texas.

The public library directory, which begins on page 1 of Section II, includes city and county libraries and their branches, listed in alphabetical order by city. The hours per week for those libraries with branches are a composite of hours for both the central library and branches which do not overlap. Following this directory is a statistical profile of libraries submitting reports, arranged alphabetically by city name within each library system (BCLS, CTLS, etc.), with the Major Resource Center city shown wherever it falls alphabetically. A section of summary statistics is located before the county profile of library service. As in the past, most data items do cover the last local fiscal year or reflect the status at the end of that year, except for staffing and schedule information, which is as current as possible. The membership year noted in the directory is State Fiscal Year 1984 (September 1, 1983 - August 31, 1984.)

Following the statistical section is an index which includes names of Head Librarians and Branch Librarians, and the names of libraries and branches which do **not** begin with the name of the city in which they are located.

We would like to express our gratitude to all the public librarians for their cooperation and efforts in completing the Annual Report/System Membership Application forms, as well as to the ten system coordinators for their part in the gathering of both statistical and directory information. Special thanks go to Mitchell Gidseg of the TSL Library Development Division for production of the statistical sections of this publication. Haven Whatley Toothman of the TSL Library Development Division was responsible for collecting and verifying the Annual Report/System Membership Application forms, as well as for data entry of the statistical section and typing and coordinating the publication of this volume. Also contributing their time and efforts were TSL staff members Janet Ramirez - data entry, and Bell Colyer - layout, paste-up, and graphics production.

III. Selected Statistical Information for Texas Public Libraries, 1983

INTRODUCTION

The statistics section is organized into three subsections: Statistics by Library, Summary Statistics, and Statistics by County. Each subsection is described below.

Statistics by Library

Format

Each page in this subsection contains the complete profiles of five libraries. Each profile appears as a column of information which is clearly labeled on the lefthand side of each page.

The profile number at the top of each column is a unique number which identifies the library. The profile numbers are listed sequentially throughout the subsection and are useful in finding a specific library profile when coming from the directory.

Organization

- Libraries are grouped by library system.
- Library systems are arranged alphabetically by library system abbreviations. A map and list of all library systems are located on page 4 at the front of the publication.
- Within each system, the city in which the library is located is arranged alphabetically.
- Profiles are reported for each federated library system member in place of a consolidated profile for the federated system as a whole. Profiles are also reported for federated library system headquarters. Data from federated library system headquarters are included in the statistical summaries but headquarters are not considered or counted as separate libraries.

Summary Statistics

Format and Organization

This subsection contains one page of summary information for each library system and for the state as a whole. The library system summaries are arranged alphabetically; the state summary is reported last. Each page in this subsection has the same format: in the first column is a list of items in the library profile; in the second, third, and fourth columns, summaries are provided for each item in the profile grouped by member libraries, non-member libraries, and total libraries, respectively.

The following additional information is reported only for the state summary: the number of "Branches," "Deposit stations," "Bookmobiles," "Libraries receiving city funds," "Libraries receiving county funds," "Counties without library service," the "% of libraries receiving city funds," the "% of libraries receiving county funds," "Total expenditures per capita (1980 Total State Population)," "Total population in 1980 census."

Statistics by County

Format

Each page in this subsection is composed of seven columns of information. They are listed from left to right as follows: "County Name," "Population 1980 Census," "Population Served in 1982," "Maximum Property Tax for Library," "County Library Expenditures," "Cities with Libraries," "Profile Number."

Organization

The information is arranged alphabetically by county.

The statistician encourages users to submit comments concerning these noted changes in the statistics section as well as any suggestions for further improving it. These comments and suggestions should be addressed to
